

# Arizona Career Pathways Alumni Update

## WELCOME TO THE ACP NEWSLETTER

Welcome to the first ACP newsletter! The ACP team is rolling out a quarterly newsletter to keep the graduating students abreast of our program updates. We also want to use this page to update everyone on the interesting jobs our students are applying for after they finish their program, while offering surveys and events on each notice. Keep checking in, as we will offer giveaways for some of the surveys.

A new group of students graduated last spring, and ACP was able to host a graduation celebration. It was a great event to meet with some of our students in person. ACP collected success stories and testimonials to share with the community when we are participating in Outreach events. If you are interested in volunteering for these events, or if you want to share your own story, please reach out to our Outreach Specialist.

## New School Year, New Opportunities

We are excited to start the school year with a new batch of students. The outreach team has been hard at work expanding our student body; we have spoken with students in construction, IT and education programs to expand our reach. If you have an interesting story or you are working in one of these fields, we would love to get in touch with you to hear about your experience.

## NEW LOOK FOR ACP

*We have been hard at work updating our website.*

Our IT team wanted to update ACP's look for the coming school year. The webpage has a new look and we have posted some of our new advertisement material. We hope the new website brings plenty of new web traffic our way. You can check it out here: [\\_ \(arizonacareerpathways.org\)](https://arizonacareerpathways.org)

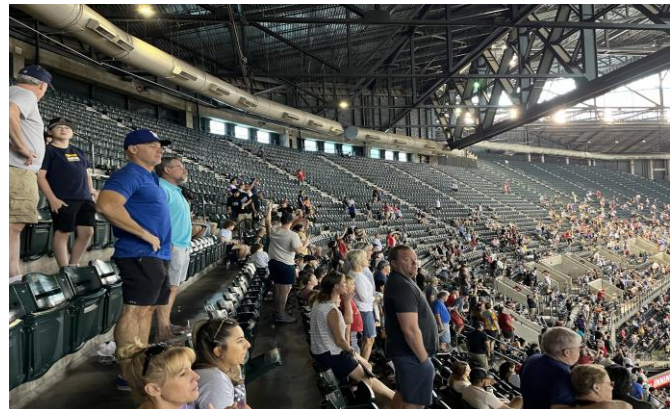

## Outreach Events

*ACP is always looking to make connections in the community that can benefit our students.*

Transportation issues can be one of the biggest barriers for a student trying to finish their degree. One of ACP's career navigators, Layla Maroufkhani, reached out to JC Supercars in order to help one of her students with this problem. JC Supercars were able to connect the student with a refurbished 2004 Crossfire. Jacqueline, the ACP student who received the car, was elated to receive a new vehicle that would help alleviate her transportation problems. Focusing on her nursing classes would be a lot easier now that she would not have to worry about car repairs or breaking down in the middle of the road.

Besides our event with JC Supercars, the ACP Outreach team hosted a graduation celebration, as well as a student event at an Arizona Diamondbacks game. Both events were great opportunities to interact with our student body and learn more about the people we are serving. We will be hosting more events in the future, so keep checking back in with our newsletter so you can stay involved in any alumni events. Please reach out if you are interested in being an alumni ambassador or assisting in ACP Outreach events.

*We will be hosting alumni events during the winter and spring. Make sure to check the next issue to stay in touch!*
